Dear Ladies,

I hope you enjoyed the luncheon at the Osceola Café. Their buffet is always delicious and you get to choose your own food. Our next luncheon will be at Olive Garden near Pointe Orlando at 8984 International Drive. As a pasta lover, that is one of my favorite places. *Kimberly Riley* from the *Orlando History Center* will be our speaker.

At the April luncheon, we will be dispensing the funds we have collected for Matthew's Hope. If you have not made your donation, please send it to Mary Greene as soon as possible so we can include it.

We are still collecting jewelry because we will continue the jewelry sale at the May meeting. Bring what you can to the April meeting and we will collect it there.

Until April, take care of yourselves and I will see you then.

## Computer Tips by Barbara Aboushahba

Ever push the start button on your laptop and nothing happens? Don't run to Best Buy to replace it before trying this: Unplug your laptop, turn it over and pop out the battery, and then push down the start button and hold for 30 seconds. Now plug it in and hit the start button again. Does it come on? Great! Put the battery back in and proceed as normal. No luck? Well, the next thing to check out is your power cord. When plugged in does the light turn on? If not, your cord may be bad (buy a new one) or the connection inside the computer to the cord may be broken off the motherboard (expensive to fix). Worst case - computer is dead. Go shopping.

## TAX SEASON: ID THEFT AND FRAUD WARNING!

Tax scams and tax related ID theft take many forms including mail, phone, e-mail and now even social media and texting. While everyone is at risk, many of these scams target older people, those that may be newer to the United States, or simply those less experienced with computer security or tax filing procedures. Watch out for your friends and family who may fall into any of those categories and share this with them.
